

Dremel Home Solutions™ Flashlight Fact Sheet

- The Home Solutions™ Flashlight offers 500 Lumens maximum with high, medium (200 Lumens) and low (50 Lumens) settings.
- The Dremel Flashlight features a 5000K beam of clean, white light for clear visibility in the dark, being seen in an emergency and home repairs.
- The Dremel Flashlight features an adjustable beam light that is narrow and wide range capable with a twist adjustment between spot and flood. In high, spot mode, it projects 650-feet, the length of 2 football fields.
- No need to fear water because the flashlight is IP67 certified waterproof for a submersion depth of one meter for 30 minutes making it ideal for wet applications both indoors and out.
- Built tough with a solid aluminum housing for durability, the flashlight is protected from damage and abuse by means of front and rear rubber ends that absorb shock when dropped.
- Its integrated Lithium-Ion battery holds a charge for two years in storage making it ready when you need it, unlike many conventional battery-powered flashlights whose batteries may have died, become weak or misplaced.
- With its USB Fast Charger the Dremel Flashlight has universal and convenient charging, with only 1.5 hours for a full charge. Charging station can plug into a wall outlet or USB port.
- The versatile, adjustable, and removable belt clip has two orientations of use offering multiple positions for hanging or storage.
- The Flashlight's compact size and 500 Lumens provides the power of the larger C and D size flashlights without the size and bulk.
- The Dremel Flashlight will be available in November 2020 at The Home Depot both in store and online and for a suggested retail price of \$39.97 in the United States.

Specifications

Dremel Home Solutions™ Electric Screwdriver Fact Sheet

- The Home Solutions™ Electric Screwdriver offers two ways activation. Push the power button or push the tool itself into the screw to activate.
- Features *Smart Stop Technology* that detects when the driver bit is misaligned from the screw head and cuts off power, reducing damage to the screw head and removing user error.
- Six-position clutch lets the user match the right amount of torque for the job. This controls the amount of power applied and also prevents damage to the material being fastened.
- With a speed of 360 rotations per minute, the Dremel Electric Screwdriver drives screws up to 2 times faster* than similar products in the market.
- USB a fast charger has universal and convenient charging, with only 1.5 hours for a full charge. Charging station can plug into a wall outlet or USB port.
- By setting the switch in neutral, users can simply turn the tool like a manual screwdriver if hand tightening is needed or manual use if preferred.
- The kit comes complete with a six-piece bit set and bit extension.
- The bit holder has a ¼-inch HEX size to accommodate the most common insert bits in the market. A high-powered magnetic bit holder helps users hold bits securely in place while driving.
- The Dremel Electric Screwdriver will be available in November 2020 at The Home Depot both in store and online and for a suggested retail price of \$39.97 in the United States and \$52.47 CDN in Canada.
