

Dremel® GO™ Cordless Screwdriver Fact Sheet

- The Dremel GO driver compact cordless screwdriver offers a Push Start feature that is intuitive to use and makes it easy to drive and stop with a simple push.
- The Dremel GO driver features an Overdrive Protection dial that lets the user match the right amount of torque for the job. This control to the amount of torque being applied also helps prevent damage to the material being fastened and stripping the hole.
- With a speed of 360 rotations per minute, the Dremel GO driver drives screws up to 2 times faster* than similar products in the market.
- With its USB Fast Charger the Dremel GO driver has universal and convenient charging, with only 1.5 hours for a full charge. Charging station can plug into a wall outlet or USB port.
- The lightweight and compact size of the Dremel GO driver fits in a pocket for maximum portability.
- By setting the switch in neutral, users can simply turn the tool like a manual screwdriver if hand-tightening is needed.
- The Dremel GO driver comes complete with a seven-piece precision screwdriver bit set.
- The bit holder has a ¼-inch HEX size to accommodate the most common insert bits in the market. A high-powered magnetic bit holder helps users hold bits securely in place while driving.
- The Dremel GO driver will be available in October 2018 at select hardware and home improvement centers nationwide and on Shop.Dremel.com for a suggested retail price of \$39.98 in the United States and \$49.99 CDN in Canada.
